The purpose of this rolling admission is to expand the contractor base by awarding additional Indefinite-Delivery/Indefinite-Quantity (ID/IQ) prime contracts. - All requirements are fulfilled competitively on a task order basis by individual ordering offices.
- Heavy emphasis is placed on Performance Based Orders
- Seaport-e program goal is to award 33% of total obligated dollars to small businesses as prime contractors.
- Large business awards have a minimum Small Business Subcontracting Goal of 20% of the dollars obligated.
- Only one ID/IQ contract award is allowed for individual companies as a Prime - "Company" includes affiliates, and business units as defined in FAR 2.101. However, a contractor may be a subcontractor to multiple Primes.
- Task Orders are competed in one of seven geographic zones (Northeast, National Capital, Mid-Atlantic, Gulf Coast, Midwest, Pacific Northwest, and Southwest) based on the place of performance for the solicited requirements.
- Task orders are competed in the zone that is the principal place of performance.
